19	134	**43**	303	**67**	472	**91**	641
20	141	**44**	310	**68**	479	**92**	648
21	148	**45**	317	**69**	486	**92.5**	**651**
22	155	**46**	324	**70**	493		
23	162	**47**	331	**71**	500		
24	169	**48**	338	**72**	507		

How to read it: measure the liquid depth straight down from the surface to the inside bottom of the tank, in inches, and read the gallons beside it. The chart runs to the top of the straight sidewall (92.5", in red).

Above the sidewall: the dome above the straight wall holds more, and the tank may be filled "brim full" with care. That extra volume is not charted.

Accuracy: calculated from the tank's dimensions with a nominal 1/4" wall. PVDF also moves slightly with temperature, and wall thickness varies from tank to tank, so actual volume can differ from this chart by a few percent. The first inch near the bottom corner holds slightly less than shown. Use the chart as a close guide, not for custody transfer or billing.

Dimensions from the Bailiff drawing VTB00650-046.pdf. All dimensions in inches.
